GS-1002P

8Port POE+Gigabit Switch

Agile, safe, and cost-effective Traffic Management Solution

Product Features

- ▶ Provide & manage the power of PTZ cameras, IP phones, 11ac wireless AP, IP surveillance, and other powered devices, offering a quick and cost-effective POE network solution for enterprises, hotels, education, and smart building.
- ▶ 8 sets of 10/100/1000 Mbps RJ45 copper ports featuring 30W(max.) power for each POE port, offering sufficient power for business applications.
- ► Complies with IEEE 802.3at POE, end-span PSE.
- ▶ Remote power feeding up to 100M in standard mode.
- Supports SFP auto-detection and dual speed. The distance can be extended from 550M to 2KM (multi-mode fiber) and up to 10/20/30/40/50/70/120KM (single-mode/WDM fiber), easily realizing ultra-long distance transmission.
- ▶ POE management via Web-based interface: remotely check and control POE power budget, POE port function, power feeding priority, POE schedule, per POE port power limitation, and so on.
- ▶ Robust QoS & DSCP features: empowering the enterprises to take full advantage of the limited network resources.
- Supports DHCP snooping, STP BPDU, and ARP inspection: prevents from attack and constructs highly-secured network.
